TIKKURILA
PRESTO PIKASILOTE
RAPID FILLER

DESCRIPTION
Quick-drying latex filler.

RECOMMENDED USES
Walls, ceilings, furniture, doors.

PRODUCT FEATURES
For filling scratches and the partial leveling of small surfaces in dry rooms before painting with latex or alkyd paints. Suitable for new and previously painted wooden, chipboard, woodfiber board, rendered and filler surfaces.

PRESTO PIKASILOTE

APPLICATION INSTRUCTIONS

Application conditions
The surface to be leveled must be dry, the ambient temperature at least +10 °C and the relative humidity of air below 80%.

Surface preparation
Unpainted surfaces:
Clean the surfaces of dirt. Remove any dust and loose material by brushing. Level unpainted surfaces directly with Presto Pikasilote.

Previously painted surfaces:
Wash surfaces with Maalipesu detergent. Once the surface is dry, remove as much paint as you can and sand painted surfaces to a matte finish. Remove the sanding dust.

Application
Apply Presto Pikasilote with a smoothing trowel. Let dry, sand the surface and remove the dust. The surface can be only dry-sanded.
Fill first any larger cracks, nail heads, etc. with suitable Presto filler and sand the surface.

The leveled surface will be tight and smooth. Smallest parts can be finished directly with topcoat.

Coating
The smoothed surface is solid and smooth and therefore can be painted directly with latex- or alkyd paint.

Cleaning of tools
Clean tools with water. Tikkurila Pensselipesu Tool Cleaner is recommended to remove slightly hardened paint.

Environmental and waste disposal
Deliver empty packaging and hardened mortar to a recycling point or waste tip according to local regulations.

HEALTH AND SAFETY LABELLING according to Regulation (EC) No. 1272/2008
Contains 1,2-benzisothiazol-3(2H)-one (Bit) and reaction mass of: 5-chloro-2-methyl-4-isothiazolin-3-one [EC no. 247-500-7] and 2-methyl-2H-isothiazol-3-one [EC no. 220-239-6] (3:1) (C(M)IT/MIT (3:1)). May produce an allergic reaction. Wear protective gloves. This product contains a biocidal product for the preservation of the product during storage. Contains: reaction mass of: 5-chloro-2-methyl-4-isothiazolin-3-one [EC no. 247-500-7] and 2-methyl-2H-isothiazol-3-one [EC no. 220-239-6] (3:1) (C(M)IT/MIT (3:1)).
